

The Real Dr. Judy Newsletter

January 26, 2022

I am so pleased to announce the launch of The Real Dr. Judy newsletter to start off the new year and the start of my new life without my David. My team and I will be sending out weekly newsletters to keep you apprised of products and events to keep you healthy and aware.

I hope that you will join us in this endeavor and encourage others to [subscribe](#).

My first order of business is to invite you to attend the Cardio Miracle Webinar that I am hosting this Friday, January 28th at 6pm. Please reserve your seat at the virtual table!

FREE WEBINAR: Hosted by Dr. Judy
Fri, Jan 28th at 6PM (MT)

THE SECRET LIFE OF NITRIC OXIDE
with John Hewlett and Stanford Graham

For four decades, I have been a vigorous, vocal advocate for taking command of your own health and to do it in the best possible ways ... gently and naturally. I have occasionally shared that I enjoy a high-quality **nitric oxide boosting supplement called Cardio Miracle.**

That's right, I take it myself!

If you are taking a nitric oxide boosting supplement—and especially if you are not—you won't want to miss Friday, January 28th at 6PM (MT) with John Hewlett and special guest me!

My life's work is as a cancer and AIDS research scientist. In my forty-year quest to understand the causes, prevent and treat chronic diseases, I co-authored seminal papers culminating in at least a decade of research in each of four fields: *immunology, natural products chemistry, epigenetics and HIV/AIDS drug development.* My passion is educating people on how to translate and incorporate my research discoveries into optimal health. I will be sharing my abundant knowledge of human health and the healing power of the body.

This unique webinar opportunity is hosted by myself, alongside special guests Stanford Graham and John B. Hewlett of Cardio Miracle. John is the Founder and Formulator of Cardio Miracle, and an expert on nitric oxide.

NO MORE SHOTS, EVER! THIS IS WHY!

PS: You have probably seen other websites with my name and image selling books and purporting my endorsement of supplements. These sites are fake! They are profiting off the hard work that I spent decades during my career performing scientific research.
