PLEASE BE AWARE: Both Mail Shipment and Supply chain disruptions have caused product shipments to be delayed for up to two weeks or more. Consider ordering a three months supply now in order to prevent you from running out of essential items in the near future.

Hello everyone,

In honor to Luc Montagnier:

I am grateful that we had the opportunity to display Luc's courage, and the gift he was to all humanity, when we highlighted Luc's vision in our books ***Plague of Corruption*** and ***Ending Plague***.

I actually had never met Prof. Luc Montagnier until March 3 2011, when we both presented at a conference in Key West, Florida. I spoke immediately after Luc gave this amazing talk on water; we only now appreciate how far ahead of his time he always was, a lot like Frank Ruscetti. I did not know then how much criticism he endured. I was always grateful that, as I was trained, Luc simply ignored the criticism and focused on the data. Luc led by example.

At that time, I was focused on our equally controversial data and looked forward to the meeting he, Frank and I would have later that evening in a windy cold tent. The three of us saw the looming

threat to our children if we did not stop the inoculation of animal and human viromes from contaminated cell lines that had been used in the manufacture of vaccines for four decades. Luc vowed then to help us and he honored that vow. As I reread Luc's chapter in *Ending Plague*, I see his discussion of the origins of HIV as this weeks' news explodes with HIV in the vaccines.

Quoting Luc Montagnier in *Ending Plague*, page 232 print edition:

"Today, nine subtypes of the major group HIV-1 plus the new subgroup HIV-O have been identified, but the list is far from complete. It is therefore possible the virus existed in an endemic state (that is, at a low level) on several continents before developing into an epidemic.

If we grant that the virus had been present in humans for a long time, in Africa and probably elsewhere, the question then arises as to why the epidemic is so recent. Why, in just a few years, has the same virus gone from being a sporadic infection to an explosive epidemic?"

The answer, as I clearly see it now, is that the explosive epidemic is because of the activation of HIV from the endogenous human virome with each vaccination, which activates latent/dormant viromes from past infections and vaccinations. I now appreciate what we were discussing March 3 2011. The transmission of animal and human viromes, contained in essentially every one of the 21st century vaccines, by virtue of the growth of viral and microbial antigens in those continuously growing "immortalized or transformed cell lines, had in fact been ongoing **"gain of function" studies in vulnerable human populations.**

We now know as a fact from this 2016 paper (Sep 24, 2016 - *Standard vaccines increase HIV-1 transcription during antiretroviral therapy*) that even when HIV infected people are on highly active antiviral therapy (HAART), ANY vaccination will result

in the production of HIV and accelerate the development of AIDS.

Additionally, as Luc suggested, this results in the activation of our endogenous virome, including our human endogenous retrovirus W (which produces, Syncytin, the component of the spike protein of SARS-Cov2), highly similar and therefor potentially cross reactive with XMRVs contained in these cell lines used in the manufacture of vaccines. Could this explain autoimmune responses if monkey or cow or pig or dog or chicken Immunodeficiency viruses were injected, therefore bypassing our endogenous (God Given) virome, an alarm system of a dangerous invader that could damage or a genome is present and signals innate immunity to clear the non-self sequences before they get into the blood? We see this clearly in the vaccine injuries and the very symptomology that is **COVID. (IT NEVER WAS A DISEASE CAUSED BY SARS-COV2. It was then and is now VACCINE AEIDS.)**

I realize how blessed I was to be able to discuss theories without fear of humiliation and realize Luc's words then could have prevented COVID and put an end to these Plagues of Corruption we've endured for now 4 decades. I also realize the best way to honor this amazing human being is to encourage each and every scientist to emulate his courage and speak the truth of the data regardless of the personal cost. Why? Because the solution is simple. We must educate our immune systems to prevent and treat infectious disease and cancer as God intended. This is the definition of natural immunity. Simply avoid ingesting or injecting genetically modified organisms (GMO, all vaccines are GMO)

Psalm 91. Abide in Him

Thanks Luc. Godspeed

Sunshine D3 5000 liquid

Buy now

From my newsletter last month on "Cardio Miracle" you know I am a huge fan of taking advantage of synergies when it comes to food and nutrients in my diet. "**Cardio Miracle**" replenishes the minerals we do not get any longer from our depleted soil in which our grains and vegetables grow. Nitric Oxide is produced in the endothelial cells - the largest organ in the endocrine system. The messenger molecule Nitric Oxide is responsible for mediating many vascular complications and calms down inflammatory responses in the body.

*Watch Dr Judy's talk on Womans Health
on the Cardio Miracle Webinar Feb 24, 2022*

Another important modulator of the endocrine system is Vitamin D. It is in fact a hormone rather than a Vitamin and, also known as D3 or cholecalciferol-D3, controls roughly 300 immune reactions. Now today, 35% of adults in the United States are Vitamin D deficient, as many people aren't spending ample amount of time outdoors anymore.

(Source: <https://www.ncbi.nlm.nih.gov/books/NBK532266/>)

I combine a product called **Sunshine D3 5000 liquid** with "Cardio Miracle" and nutritional frontiers **ProLean Greens** in one tall glass of clean mineral water every morning to start my day off on the right foot. After consuming this nutrient rich breakfast I can rest assured, I have my nutritional bases covered for the most part and I can relax about what I eat for the rest of the day.

Did you know that Vitamin D is an immune system modulator for healthy T-cells and macrophage responses? Macrophages are the clean-up crew who eat up anything that does not belong in your precious body that could lead to infection or dysfunction. My PhD Thesis in 1991 showed keeping the macrophage healthy prevented development of AIDS in the HIV infected!

Be well!

All the best of health,

Judy A Mikovits, PhD

Video of the Week

Tea Time show on Children's Health Defense TV on February 28, 2022

Dr Judy is the special guest in a discussion including Ilana Rachel Daniel from Israel.

Dr Judy's Upcoming Public Appearances

The Wellness Parenting Revolution
HEALTH & FREEDOM SUMMIT & EXPO
 25 world class speakers including:

Robert F. Kennedy Jr. Peter A. McCullough, MD, PhD Drs. Teri & Stu Warner Del Bigtree Judy Mikovits, PhD
 Amy Pflieger Robert Scott Bell Gary Humble Dr. Liam Schaefer Melissa Chitt Orkley DeMoss Steve Chitt Corgan Dr. Edemegor
 Brian Hooker, PhD Neil Z. Miller Stephanie Liconchik The Wild Doc Dr. Roger Schaubert Pamela Brennan Leigh-Allyn Baker Shilonda Kupersteyn

Uniting for True Health and Freedom!
March 12th & 13th, 2022
 Gaylord Opryland Resort Nashville, TN
