

The  
Real

DrJ

Let's all wish a very special Happy Birthday to Dr. Judy and her twin, Julie!

They were born on April Fool's Day. Haha.

And as Judy always says, *"God has a great sense of humor."*

Lots of Love, Team Judy

Hello everyone,

Thank you for everyone's support following last week's newsletter. There was an issue with one of the instructions, so if you still want to help, we posted updated information **on my website here**.

All eyes are on Florida lately! Florida plays a pivotal role in shaping our God given medical freedom rights in this country. Governor Ron deSantis' response to this entire "Plandemic" since the beginning in 2020, has remained the most common sense and scientific evidence-based approach in the entire nation. He has proven to be a true servant of the American people.

That said, I am proud to be speaking at two VERY important tours throughout the month of April in the Sunshine State:

**Save a Generation Florida Tour**  
**Crimes against Humanity USA Tour**

**Crimes against Humanity USA Tour** events in major US cities through May and June. The information and knowledge gained is guaranteed to be life saving in every aspect. Please spread the word with your friends and family, and join me in any of the several cities I will be in. I look forward to meeting you!

Watch this ten minute video explaining what the Crimes Against Humanity Tour is about:

Since both tours overlap during the month of April, I will be traveling through Florida in the next few weeks in hopes to see many of you along the way of our various stops across the beautiful state of Florida. Spread the word to your friends and family - the info you will receive on these tours is life saving in every aspect.

I met the developers of the **CYTOGEN** line of professional CBD products in 2014. As for any product: Integrity matters. From water selection, to the microbiome of the soil, to superior organic processes, to the rigorous independent testing, every process must be connected to the highest medicinal material consumers deserve. In order to ensure best practices and quality standardization, a working group was formed called the “*CBD Authority*” to identify key points of the product development cycle to guarantee the highest quality botanical output that Mother Nature has to offer.

**CYTOGEN** is a brand uniquely developed for healthcare professionals. These products are not found in a dispensary or gas station, but in physician offices, chiropractic centers, mental health facilities, and neurological institutes. **CYTOGEN** is written by doctor's prescription in Brazil for the treatment of ten health conditions including refractory seizures, chronic pain, cancer, autism, and other hard to treat ailments.

As a chemist by trade, I like to leverage my experience in natural product chemistry and knowledge into developing new innovative cannabinoid-based formulations that take advantage of synergies. In my ongoing research on medical cannabis I have come to understand the pathophysiology of neuroimmune diseases as acquired endocannabinoid immune dysfunction (AEIDS, in which cannabinoid-based formulations provide the pathway for achieved and sustainable healing.
