You are receiving this email because you previously signed up for news and updates from me, **Judy A. Mikovits PhD**, either on my [Plaguethebook.com](http://Plaguethebook.com) or [TherealDrJudy.com](http://TherealDrJudy.com) website.

Hello everyone,

Because of the extensive multi-city tour that I am on for the next few months, which is vital to our medical freedom in this country, it is difficult to timely answer the multitude of emails asking for my help. I strongly suggest that you talk to a practitioner in your area for a diagnosis and/or treatment. You may also contact these highly recommend organizations for their help: **FreedomMed, America's Frontline Doctors, Take Care Telemedicine, and FLCCC Alliance with Dr Pierre Kory.**

You have probably heard by now about **Dr. Bryan Ardis' interview with Stew Peters from April 11th 2022**. Since Dr. Bryan Ardis is not a biochemist or microbiologist, he might have presented his findings in an unfavorable way, but he is not wrong. I got on the air with Pete Santilli, while I was on the road, addressing the controversy. Quote from the interview below:

**Watch my full interview here**

*"You simply have to appreciate biology. So what Brian Ardis said is correct. It is not a 'coronavirus' but it is a respiratory virus, because it was created as a bio weapon to spread through the air.*

*Because retroviruses spread through blood and body fluids. Do you know HIV? Oh, you can't get it any other way. XMRV was through blood and body fluids as well. So they had to spread a contagion. They had to create a virus which would infect all the people carrying their bio weapons they created.*

*What people don't understand, there isn't a single vaccine on the current schedule that meets the definition of a vaccine. They are all synthetic manufactured viruses. They are created in the lab using molecular biology: putting an infectious molecular clone into manufacturing plants."*

I am finishing up the Save a Generation Tour today in Sarasota, FL, before I head back to Irvine, California to continue the **Crimes against Humanity Tour** with my colleagues **Dr. Reiner Fuellmich, Patrick Wood** and **Dr. Fleming**. Check the locations nearest to you and come see me there! We still have a few tickets available.

I had a great time meeting a lot of you on location in Florida and had the pleasure of speaking with many of you personally. You are my reason I am doing this. I wanted to be able to bring solutions to the people who so desperately need it. As victims of the plague of corruption, it is time for all of us to simply say no, never again take another shot and heal through food. I will provide my **slides from Save a Generation Tour on my website** for you to find all of the information you need and to have tried-and-true solutions on hand.

As many of you know, there are several web and social media sites using my name and image to sell my books and purporting my endorsement of supplements. They are profiting off the decades of hard work that I have and continue to spend performing scientific research. I do NOT support most of the information shared using my name. These sites are fake!

Please follow these [instructions](#) to help me eliminate these unofficial endorsements and fake use of my God given purpose as a scientist and educator.

Thank you all so very much for your support!

## What Do Your Disaster Plans Look Like?

*Presented to you by  
Steve Slepcevic*

Inflation, food shortages, financial collapse, cyber attacks, power infrastructure grid failures, and chip shortages are on the rise in America, but that's not the only place. Other countries are already experiencing some terrifying consequences from high prices around the world.

That – coupled with the war – and the potential for an EMP Strike, means we could be facing not only food shortages, but shortages in fuel, fertilizer, aluminum, medicine and other critical life sustaining commodities as well.

I personally made this video with educational information and resources to build your emergency plan so you and your family can be better prepared when disaster strikes, whether you're at home, school, work or anywhere else in the world.

*-In Service, Steve Slepcevic*
