Crimes against Humanity makes a stop in Phoenix, Arizona, on May 14th. Evidence for crimes against humanity being committed are rising - you do not want to miss hearing this!

If you are one of my Arizona warrior friends, come see me and my wonderful colleagues, and please spread the word to your friends and family.

I am endorsing Reinette Senum for Governor. She is the only gubernatorial candidate who honors both the California and US Constitutions. A proven leader who serves We the People NOT Special Interest Groups. The Primary Election is coming up soon, June 7th, 2022 and our future for California is hanging in the balance. Taking a stand for bodily autonomy and medical freedom with integrity and transparency, she is the only choice for California's future.
-Dr. Judy

"The government's business ends at our skin. The government should never restrict, coerce, or mandate a medical intervention or treatment. Californians have the right to be informed of all treatment options – along with the respective risks and benefits – and whatever decision they make for themselves or their children must be honored and respected. The patient and doctor/medical practitioner relationship is sacred and must be respected.

In the face of the crimes against humanity that have been committed by Governor Newsome and any and all of the government and health officials, in charge, we need to ask the question: **What did you know and by when?**" -Reinette Senum

Because of the extensive multi-city tour that I am on for the next few months, which is vital to our medical freedom in this country, it is difficult to timely answer the multitude of emails asking for my help. I strongly suggest that you talk to a practitioner in your area for a diagnosis and/or treatment. You may also contact these highly recommended organizations for their help: [FreedomMed](#), [America's Frontline Doctors](#), [Take Care Telemedicine](#), and [FLCCC Alliance with Dr Pierre Kory](#).

I am again activate on Twitter at [JudyAMikovitsPhD @DrJudyAMikovits!](#) Ever since Elon Musk took over Twitter, free speech seems to have finally made a comeback. Before, it was nearly impossible for me to get any of my information out on mainstream media without being censored.

As many of you know, there are several web and social media sites using my name and image to sell my books and purporting my endorsement of supplements. They are profiting off the decades of hard work that I have and continue to spend performing scientific research. I do NOT support most of the information shared using my name. These sites are fake!

Please follow these [instructions](#) to help me eliminate these unofficial endorsements and fake use of my God given purpose as a scientist and educator.

Thank you all so very much for your support!
