*You are receiving this email because you previously signed up for news and updates from me, Judy A. Mikovits PhD, either on my [Plaguethebook.com](http://Plaguethebook.com) or [Therealdrjudy.com](http://Therealdrjudy.com) website.*

My most recent webinar with Stanford Graham from **Cardio Miracle** was enlightening. Thank you all for joining and contributing to this most important topic. Justice will prevail. As promised, you can **catch the replay HERE**. I reveal how to maintain healthy endothelial cells to enjoy inner beauty and aging benefits, naturally! I also discuss why this is crucial science to understand during these unprecedented times we live in.

Hello everyone,

This past week you may have seen my high energy podcasts and interviews linked in this email. Can you tell, I am frustrated with the level of corruption we still deal with in the arena of science?

Speaking truth is a straight forward action. It is called integrity and is clearly defined by the oath a scientist takes upon graduating. As simple as it is, there seems to be a lot of friction in the public arena and frankly, it is exhausting.

I have been a target for speaking truth based on data ever since the publication of my 2009 paper on XMRV. Despite the unfair and cruel treatment by the scientific community that ensued, I always have and always will honor my scholar's obligation to show all the data and communicate it honestly, regardless of the cost.

I want to challenge my critics and attackers to invite me to a healthy, fair and open debate about the data. My data is public, it is the result of decades of my work, and is available to everyone.

We all have blind spots. May we all continue to humble ourselves to keep learning from one another by being “quick to listen, slow to speak and slow to become angry”.(James 1:19).

I hope you have a fantastic week coming up on Memorial Day.

I honor the memory of the many truth tellers who paid the price for telling the truth with their lives.  
Never forgotten.

### THE REVOLUTION OF HEALING | Advancing Beyond MedBed Technology

Jason Shurka interviews Dr. Sandra Rose Michael to raise awareness regarding MedBed technology while also finding a way to make this technology accessible to the entire world.

MedBed technology is here and we are going to make this technology accessible to the entire world, once and for all. We've got an entire planet to heal!

WE can no longer be victims of these crimes against humanity. Now is the time to be bolder and stronger than ever before to demand justice in order to end this plague of corruption once and for all.

WE need to combine our forces to prosecute the individuals and organizations who forced the implementation of their experiments-in-a-syringe upon the world, to obtain justice, and to achieve monetary relief for the millions who have been injured or died at their hands.

WE need to use our collective energies in a cohesive unification for God and Country.

### FAKE ENDORSEMENTS CALL TO ACTION!

There are several fake web and social media sites profiting off of decades of my scientific research by using my name and image to sell my books and purporting my endorsement of supplements. Please go to The Real Dr. Judy to learn more and stop the fraud and use of my God given purpose as a scientist and educator.
